**PORTFOLIO**  
LINK/QR CODE  
<https://portfolio>

Over 2 years and 6 months of combined experience in Frontend & Backend Development, UI Design, across Ecommerce, Booking, Software, and Healthcare industries. Proficient in Creative Design, Web Development, and Database Management. I hold a Bachelor of Science in Information Technology from Don Honorio Ventura State University, Bacolor, Pampanga.

## Professional Experience

### Alliance Health Care

Full Stack Web Developer - *E-commerce, Wordpress, Elementor*

**Mexico, Pampanga**

June 2024 - Current

- Leveraged Elementor to create custom, visually appealing, and responsive web pages, enhancing the overall aesthetic, usability, performance, and SEO of various websites.
- Developed an end-to-end e-commerce platform, order management systems, and scheduling management website to streamline online transactions and enhance user experience.
- Implemented Store Locator feature to help clients find the nearest business location and enhance customer engagement
- Utilized a full-stack development approach to ensure seamless integration of front-end and back-end functionalities, delivering a cohesive and intuitive user experience.
- Collaborated with clients to understand their business requirements, provided technical expertise, and delivered tailored solutions to meet their specific needs.

### Freelance Web Developer

Full Stack Web Developer - *DMS: Laravel, PHP, Tailwind*

**Clark, Pampanga**

March 2022 - May 2024

- Developed dynamic web applications using Laravel, PHP, and Tailwind CSS, ensuring robust functionality and responsive design.
- Designed and implemented a Document Management System (DMS) to streamline document storage, retrieval, and management for clients.
- Integrated third-party APIs to enhance application features and functionality, improving overall user experience.
- Employed agile methodologies to efficiently manage project timelines and deliverables, ensuring client satisfaction and project success.
- Collaborated closely with clients to analyze business requirements, propose technical solutions, and implement tailored web solutions that meet specific needs and objectives.

**Offsure Outsourcing Global Inc.**  
Full Stack Web Developer - *Internship* - AMS

**Clark, Pampanga**  
Feb 2024 - May 2024

- Integrated a custom authentication system, security, managed real-time databases, and hosted applications, ensuring reliability and scalability.
- Utilized and enhanced code readability, best practices, applied a DRY approach, and ensured maintainability.
- Implemented version control systems to manage code repositories, facilitating collaborative development and maintaining code integrity throughout the software lifecycle.
- Actively participate in and contribute to internal project initiatives, ensuring timely project delivery.
- Ensured UI designs are in line with current trends and maintained consistency and responsiveness across platforms.

**Capstone Project**  
Lead Programmer - *Recruitment Government Platform*  
*with Preliminary Employment Examination*

**Mexico, Pampanga**  
Aug 2022 - Dec 2023

- Led the development team in creating a robust Recruitment Government Platform tailored for government agencies, integrating a Preliminary Employment Examination module to streamline the hiring process.
- Ensured compliance with security standards and regulations, implementing robust authentication mechanisms and data encryption protocols to safeguard applicant information.
- Provided technical leadership and guidance to the development team, fostering a collaborative environment and promoting best practices in software engineering and project management
- Architected and implemented core functionalities, including job listings, user registration, preliminary examination modules, and application management systems, ensuring scalability and efficiency.
- Conducted regular code reviews, identified areas for optimization, and implemented performance enhancements to maintain code quality and ensure system reliability.
